METEORS

That Actually Shot-At What Points Seen.

Scripps Mckae League.

Montreal, Que .. Nov. 18-At the Me-Gill university observatory between midnight and hve o'clock this morning the staff observed sixteen shooting meteors of the constellation Leo. Heveral professors took observations from St. Agathe and St. Rose, and a number of photographic exposures were made.

Williams Bay. Wis., Nov. 18-One faint meteor was seen through the big telescope at the Yerkes observatory at 10 o'clock last night.

London, Nov. 18-11 was closely here throughout last night and there. were no signs of meteors. No meteors were seen at Berlin or Paris.

CONVICTED

Of Manslaughter in First Degree, is Mahaffey.

Enid, Nov. 18 -At eight o'clock last night the jury in the Mahaffey case brought in a verdict of guilty of manalaughter in the first degree.

McDonald was a prominent figure in Oklahoma and was usually sent to all territorial conventions as a delegate. He was intensely realous in all he undertook, and spent a good share of his time in public matters to the detriment of paivate interests. He was a prominent Republican and took an active part in the D county campaigns. His activity angered the Populista of the Mabaffer stripe, he being a most rabid opponent of Republicanism. The Populists won out in the election and Mahaffey was made a deputy sheriff. From that time on he seemed determined to pick a quarrel. The end came one day when Mahaffey and a friend met McDonald alone in a piece of timber. McDonald was left dead in the road and Mahaffey claimed self defense, but the bullet holes in Me-Donald's wagon told snother story. They showed that Mahaffey was on horseback when he shot,

That evidence simply upset the theory of self defense.
